

# Letter to SRVUSD Board of Education

PLEASE NOTE: SIGNATURES ARE CLOSED

The following letter was delivered to the San Ramon Valley Unified School District Board of Education meeting on June 13, 2017.

--

May 23, 2017

Dear San Ramon Valley Unified School District Board Members,

We were shocked and disappointed by the recent revelations in the media. According to reports, it appears that the SRVUSD Board has reversed a decision to disqualify a candidate for student body president who clearly violated school policy by releasing a video containing racially-charged and offensive images which stereotyped Muslim and Arabic culture in a negative way. We say in a united voice that portrayal of Muslim Americans in a violent and xenophobic manner cannot be tolerated and treated as a "joke."

While we understand that the board and district administrators must weigh all of the evidence and take the well-being of all students and teachers into consideration, this action creates several key issues:

1. Generalization and stereotyping creates a toxic environment. It is important that ALL students feel safe and can attend school free of bullying and/or racial animus. While some students might "joke," as educators it is your responsibility to set the example, and recognize when behavior is inappropriate and could cause harm to others. Hate crimes are on the rise and currently the number one hate crime in public schools in California is anti-religious discrimination, specifically against Muslim students (according to CA department of education official). Ignorance, on the part of the students, is not an excuse for allowing such behavior to go unchecked. Our actions have consequences and those consequences should be levied fairly but justly.

2. This type of speech is in violation of the Civil Rights Act. While the free speech argument is relevant, there is also an issue of Title IV of the Civil Rights Act, which obligates schools to prevent discrimination. According to Federal law, public schools have the obligation to protect students against discrimination. This includes religious discrimination. By allowing a student to enter a leadership position as student body president, San Ramon Valley High is implicitly endorsing bigotry towards Muslim American students. Free speech is one issue, but allowing a student to be rewarded for a display of bigotry is another issue.

3. This action sets a poor precedent for future enforcement of school policy. The fundamental problem here is that, if allowed to be student body president, San Ramon Valley High will be sending a clear message to the Muslim community, and perhaps even the other ethnic demographics. That message is one of racial privilege and superiority. Using racial stereotypes as the punchline of any campaign and then, saying "relax, we were kidding," is offensive. It has the effect of ignoring the struggles of a group and dehumanizing the person or group who is at the butt of the joke. It's a way of asserting a causal dominance over another by acting like their feelings don't matter. Anyone who makes a racial joke and fails to pay the consequences for it is effectively saying "I can do this because I am superior to you."

If the school district stands by silently, they will be sending a loud and clear message about where they stand on discrimination. There are many effective ways that San Ramon Valley High can deal with this issue and address the cultural sensitivities at play here. We call on the SRVUSD board to take the following actions in response to this incident:

1. Publically condemn Islamophobia, and reaffirm the district's commitment to protecting the civil rights of American Muslims and other minority groups in our schools.
2. Create a teaching moment by inviting the Islamic Network Group (ING) and/or Southern Poverty Law Center (SPLC) to provide a cultural sensitivity training at the school. We stand by to assist in organizing such an event. The student who posted the racially-charged video is invited to help organize the event.

Signed,

SRVUSD PARENTS/STUDENTS/TEACHERS/RESIDENTS

A. Cain, Parent  
 Aadev Kumar, DVHS student
